

DAY AT HOME WAS THURSDAY.

Plummer Ordered to Call on Wife at that Time.

Alameda Society is Shocked By a Divorce Suit.

The divorce suit of Walter Plummer against Mary Plummer was filed this afternoon before Judge Hill.

The parties to the action are prominent in society circles in Alameda and the announcement of their separation has created a considerable sensation in the city circles of the county.

The husband charged his wife with desertion. She in turn justified her action in leaving him by the statement that he was cruel to her and always found fault with her cooking.

Attorney E. J. Bates, of Mrs. Plummer, was the first witness called for the plaintiff. He testified that Mr. and Mrs. Plummer had not lived together for at least a year and a half. Plummer had sent for his wife to return to him but she refused.

Plummer, although largely interested in a big salt concern, said that he had no property and that his income was only \$2 a month.

Mrs. Plummer went East before the separation and upon her return she went to the home of her parents. He went to her but she ignored him. He called every day after that until he received a letter from her telling him that her day at home was Thursday and that he need not call at any other time.

Under an agreement that Mrs. Plummer should have the custody of the children, Phil and Ed, and that Plummer is to pay \$10 a month for her support, the divorce decree was granted.

READY FOR THE CORNER STONE

May Be Laid at Library Building on Saturday.

Everything is practically ready for the laying of the corner stone of the new library building.

The corner stone to go in the stone is about completed and Librarian Greene has collected the following documents to be placed in the box:

Library reports for the past ten years and the current report for September; a copy of the Tribune for September 1, 1900, announcing Mr. Carnegie's gift; a copy of the Librarian for December 12, 1900, announcing Mr. Huntington's donation and the close of the 18th subscription; the 1900 year-book for 1900; a handsome heavy parchment scroll containing the names of the 120 and more donors to the fund (the scroll was prepared by the Librarian); copies of all correspondence with Mr. Carnegie; pamphlet of the terms for the competitive plans; copies of the Oakland paper in which the box is closed.

President John G. Hoyt of the Board of Trustees has been quite ill for some time, but is reported as convalescing. He has been confined to his room and it is probable that he will be present earlier the date will be advanced, of which notice will be given.

CANADA CLAIMS AMERICAN SOIL.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

NEW WHATCOM, Oct. 15.—News

was received here today that the Dominion surveyors who have been engaged in an effort to locate the international boundary line where it passes through the Mount Baker District in Whatcom county have abandoned their work and left the country.

According to their field notes, the line passes two miles south of where it has always been supposed to have run, while their scientific observations place the 49th parallel, which is the boundary line, within a quarter of a mile of where it has always been supposed to be.

Should the Dominion stand a majority of the finest mining properties in the country will be on the Canadian side. The matter will undoubtedly have to be made the subject of negotiations between the two governments.

CHINESE COURT NOW AT SIAM FU.

French Note Accepted By All European Powers.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

PARIS, Oct. 15.—Germany is the only power which has not replied formally to France's note on China, though she has verbally accepted its terms. Japan's answer received today accepted the proposals, retaining only one condition. This refers to the permanent prohibition of the importation of arms. While agreeing with the principle, Japan offers suggestions as to how the prohibition can be accomplished.

A dispatch received at the French Foreign Office from Hankow, dated October 15, says the Chinese Court arrived at Siam Fu October 15.

"The Empress Dowager Frederick has been suffering for some time from neuritis and a severe exanthema and acute weakness of the heart, followed by secondary catarrh of the lungs still continuing with increased temperature and irregular pulsations. There is no present danger, but a recurrence of the weakness would be the cause of imminent danger."

HIRSCHBERG VINDICATED BY BOARD.

Trustees Declare That the Charges Are Not True.

Does Not Propose to Leave Lone Under a Cloud.

Special to the Tribune.

IONO, Oct. 15.—The trustees in charge of the Preston School of Industry at Iono, L. T. Parker, Nevada City; H. H. Duncan, Diamond Springs; and J. H. Duncan, Woodland, met here Saturday last and inquired into the charges of cruelty, incompetency and mal-administration made against David G. Hirschberg, Superintendent at this place.

The investigation was held behind closed doors.

Mr. Hirschberg was not present.

The decision reached was a unanimous one and exonerated Mr. Hirschberg of all the charges and insinuations made against him.

The parties making the charges, Devoreaux, Carly and others, were taken before the board individually and questioned in such a manner as to nullify any attempt that might have been made at collusion.

Mr. Hirschberg allowed his accusers to tell their own story, and upon the statements of those accusers the trustees decided that the charges were entirely groundless.

Speaking on the subject today, Mr. Hirschberg said:

"I knew from the outset that the charges could not be substantiated. I know I was innocent and also that there could be but one verdict and that was that the charges were false and that I would be exonerated from blame."

"That has been done. The Trustees at their meeting Saturday decided, as I know they would decide, in my favor. I would not leave this place with an imputation of the kind hanging over me. This was done against me because of political purpose and now I have shown my accusers that their malice has been for naught. I was unjustly accused and I have shown my innocence."

BOXERS FLED WITHOUT A SHOT.

Destruction of Tilui By the Allies Was Unopposed.

(Correspondence of Associated Press.)

TIENTSIN, China, September 15.—Do-

ing the destruction of the city the expedition to Tilui, the results of which have already been called by the Associated Press, was profitable.

The military commanders believe, however, that it was morally valuable, as the force employed was impressive and the line of march was through a thickly populated and rich section, and one in which it is said the Boxers have ruled with a high hand.

According to reliable information that the Boxers were assembling in considerable numbers and some weeks before the preparation of an expedition to that point.

Not a shot was fired during the five days' march and the only casualty was the killing of one Sikh trooper during the looting of Tilui.

The expedition was composed of three columns, with a total strength of some 10,000 men of all arms.

About 10 o'clock on the morning of the 5th the column disembarked into the road which follows the canal and almost at the same instant the head of the center column appeared on the opposite bank while couriers and signal men reported that the third column was moving into position. An hour later the three columns marched into Tilui unopposed, finding an officer and eight men of the Bengal Lancers had entered the city two hours before and taken possession without firing a shot. Tilui was practically deserted. It was plainly apparent that the Boxers had had ample warning of the expedition and had succeeded in removing all guns and munitions.

Shortly before dark the Japanese on the right bank began to fire that part of the town, while the clusters of small houses on the outskirts were burned by the Sikhs. At daybreak on the morning of the 12th the troops broke camp and a detail remained behind to finish the destruction of Tilui. This was accomplished in a most thorough manner the smoke from the burning city being visible in Tientsin. The Americans did not participate.

McDonald of Fresno in 1906 without his knowledge and consent. Sandlin asks that Superintendent Sherman Smith of the institution be ordered to produce the girl before the Superior Court of this county to show why she should not be placed under the control of her father, who was away from home when the girl was placed in to reform school by the woman in whose charge she was left. Associated Press Dispatches by

TERRIBLE PICTURE OF THE STRIKE.

Want and Ruin Stalk Through the Coal Regions.

Merchants Ruined and Miners on Verge of Starvation.

NEW YORK, Oct. 15.—A special to the Herald from Hazleton, Pa., says:

"Want and ruin have followed in the wake of the strike in the anthracite region. Families who lived in comfort while the mines were in operation now feel the pinch of privation, and the bare necessities of existence seem like luxuries."

Business men upon whom prosperity had smiled have been brought to the verge of bankruptcy, thriving towns have become stagnant, commercial travelers have forsaken them, and newspaper correspondents and liquor dealers constitute the most important part of the floating population.

Strikers who had some little money on hand for an emergency have cut their living expenses down to a minimum, buying nothing but food and little of that. In many instances they are able to obtain some credit from local dealers, but the bills cannot run very high.

As there was little coal to be hauled, the coal railroads had to lay off the crews of most of their coal trains. There were actually in the enormous yards at Match Chunk several hundred coal cars which under normal conditions should be scattered on railroads from the Atlantic to the Pacific.

In many towns it is now impossible to obtain coal for domestic use at any price.

The stagnation of trade here is, of course, felt by the manufacturers and wholesalers of the Eastern cities who furnish the supplies, and as the merchants can obtain no cash from their customers, they must appeal to their creditors for leniency.

Appeals are being sent to the United Mine Workers' organization for funds for the relief of the destitute strikers who can get no credit."

DEPOT OF ARMS IS DISCOVERED.

Spanish Government Is Alarmed Over the Plot.

Associated Press Dispatches by

The Tribune's Special Leased Wire.

PARIS, Oct. 15.—A special dispatch from Madrid says the Spanish government is greatly concerned at the revival of the Carlist agitation and the discovery of a depot of arms at Lerida, Catalonia, where 615 Remingtons and 400 bayonets and important collections of machinery and tools for the manufacture and repair of arms were seized at a locksmith's store kept by a Carlist.

Four arrests were made at the store, including a man named Nimbo, who styles himself "Chief of the Carlist Administration."

The Herald of Madrid says the Carlists are preparing feverishly to open a campaign at the end of the present year, adding that the discontent in Catalonia forms excellent soil for Carlist propaganda.

A Young Man Badly Injured By Livermore Freight

LIVERMORE, Oct. 15.—A young man, fairly well dressed and giving his name as Albert Nixon called at the office of G. Z. Wright on Upper First street Saturday noon with a letter that he had fallen from a platform of the electric car and was rendered unconscious and that he lay beside the railroad tracks about half a mile from the depot at Livermore and part of Saturday.

The young man was badly injured, covered with blood and when asked if he had been struck by a cyclone. He was turned over to the local health officer, who called a doctor and then sent him to the County Hospital.

That New Baby

would not have been half the trouble to its mother and the nurse if its new home had been fitted out with all the conveniences and comforts that can be had if only gas is utilized.

A little gas heater would have avoided all that work and dirt that had to be borne because of that old smoky coal stove.

A little tube attached to one of the gas burners would have enabled hot water or baby food to have been obtained without even rising from the bed.

—and there are a hundred other things that suggest themselves to practical minds along the same lines.

FALTERED AT DEATH'S SHADOW.

Bernard McAnny Tries
Twice to Take
His Life.

Now He Is in the
Insane Ward at the
Hospital.

After making two unsuccessful attempts to commit suicide yesterday, Bernard McAnny, an aged engineer whose home is in Alameda, was finally rounded up by the police and taken to the detention ward of the Receiving Hospital.

McAnny made his first attempt to kill himself in the Cohen place at Fruitvale, where he tied a swing rope around his neck and tried to strangle himself.

His nerve failed when the rope began to press on his neck, and he gave up the plan.

The demented man then sought the waters of San Leandro bay and undertook to drown himself. He found the temperature too cold, however, and one plunge convinced him that he would adopt some other means of speedy death. He was about to try the estuary when he was taken into custody by an Alameda police officer.

McAnny was taken to a Government asylum today by Judge Hall. His wife was very much affected by the proceedings. Her love for her husband was manifest and she created a touching scene in court as she tearfully told of her efforts to care for McAnny. She said he had always treated her with the greatest kindness until he met with his accident.

The support of herself and McAnny then devolved upon her. The struggle had been a hard one, and among other misfortunes that followed was the loss of their homestead in Alameda.

YOUTSEY MUST COME INTO COURT.

Associated Press Dispatches by The Tribune's Special Leased Wire. GEORGETOWN, Ky., Oct. 15.—When court convened, Nelson, for the defense, said the physician reported Youtsey's condition unchanged and asked for further postponement of the trial.

Franklin, for the commonwealth, objected. Colonel Campbell, for the prosecution, said the doctor held Youtsey was able to hear, understand and reason, but that he could not always talk. Judge Cantrill overruled the motion for continuance and said that all rights of the defendant would be preserved under the law.

Colonel Crawford asked that the physician be allowed to testify. Dr. Carrick said Youtsey was weaker and no better. While Dr. Knox was testifying the door of Youtsey's room opened and he could be heard groaning and sobbing hysterically.

Judge Cantrill said he had no discretion in the matter and that the trial must proceed. Court adjourned until 2 o'clock in order to allow the Commonwealth to say whether it will object to allowing Youtsey to remain in the jury room during the trial.

IN HIS VALISE.

A Doctor Carries Grape-Nuts Food. A physician in McDade, Texas, who cured himself by the use of Grape-Nuts food, says: "Lagrippe left me a physical and nervous wreck, with indigestion, dilated stomach, constipation, and neurasthenia. I tried electricity, vapor bath, traveling, camping, and medicines, and naught.

"Finally I put myself on Grape-Nuts food and before the first package was gone, I made such an improvement that it seemed difficult to believe. I finally got to carrying Grape-Nuts in my valise, and in my pocket when I didn't have a valise. Yesterday I secured a new case of a dozen packages.

"The facts are that I could eat, and digest, and assimilate the food and gained remarkably in strength. I am now regularly attending to my practice. I have been twenty years in practice, and am free to say that Grape-Nuts food is the most perfectly and scientifically made food I have ever known. My name for professional reasons, should not be published." It can be given privately to those who cure to Inquire by the Postum Cereal Co., Ltd., Battle Creek, Mich.

on Rooms for the
Commissioner.

Applications for relief were received from Ludovino Romero de Higuera of Livermore and Mrs. Bridget Muldoon of Mission San Jose.

The applications were referred to Sub-committee.

Permits to sell liquors were granted Carl Rasmussen, Lexington; J. T. Chatelet, Elmhurst; and Edward M. Juhl, Bozota.

John Thompson, a prisoner in the county jail, was granted a credit of five days on his sentence.

CULVERT WORK.
Welch & Davis, contractors for the construction of the culvert over Adams creek on the San Leandro road, were granted an extension of time of thirty days for the completion of the work.

The applications for liquor licenses of Charles H. Silver, Moss Avenue, and San Leandro and Jack Miller, First and Fourth streets and 11th Avenue, were referred to the Judicial Committee.

The application of County Tax Collector Barber for a type writer was referred to the Building Committee.

The offer of the Govt Land Company donating for road purposes a strip of land 40 feet wide and 100 feet long in Mission Road district was filed.

BELMONT STREET.
The petition of Joshua Dembar and others for the extension of Belmont street between Fruitvale avenue and Perilla street were referred to Supervisor Talcott.

BIDS RECEIVED.
Two bids were received for grading a section of the Corral Hollow road from the point where it crosses the San Joaquin & Alameda County Railroad to the division line between the San Francisco & San Joaquin and Company's grounds and George Johnson's place, a distance of 156 feet. One bid was from John Beck, the amount being \$1,100. The other was from the San Francisco & San Joaquin Coal Company for \$2,311.50.

The contract was awarded to John Beck.

ALLEN'S OPINION.
District Attorney Allen rendered the following opinion in the matter of the application of Court Commissioner Babcock to have the Superior Court provide him with rooms for the transaction of his business:

"I can see nothing in the law that requires the Board of Supervisors to rent rooms for the Court Commissioner at his request. Whatever powers the Superior Court may have in the premises, they are not necessarily transferred to the Court Commissioner, and it would be time enough for the Board to consider the proposition whether they should rent a room for the Court Commissioner or not when the Superior Court has made the request.

"As far as providing a room for the Commissioner in the Court House, as I stated to the Board orally last Monday, there would be no objection to providing such a room in the Court House, if the Board had such at their disposal."

The application of Lenz Shack of the Colonial House for relief was referred to the Hospital Committee with power.

Anna Boyer of 75 Pacific avenue, Alameda, asked for assistance and the request was referred to Supervisor Talcott.

The application of Mary McCannan, 324 West street, was referred to Supervisor Church.

The Board adjourned until Monday next.

BOYS CAUSE A FATAL WRECK.

WILL COST HER JUST \$500.00.

E. K. Taylor Takes a
Rap at R. B.
Tappan.

The executors of the will of the late William Patton are very much offended at the sarcastic reference made to them by Mrs. Mary Dickson, guardian of Clarence Patton, an incompetent, who is one of the heirs.

E. K. Taylor, who is one of the executors, stated today that the document filed Saturday by Mrs. Dickson will cost the estate just a round \$500.

"We had decided to remit \$500 of our fees as executor," said Mr. Taylor, "until Mrs. Dickson stepped in and impugned our motives and cast reflection on the man in which we were handling the estate. Now we propose to demand every cent to which we are entitled."

"I do not believe the document, was the creation of Mrs. Dickson. I can distinguish the earmarks of R. B. Tappan all the way through it and am positive that it was prepared by him."

"He has been the stumbling block all the way through in our efforts to close up this estate."

"Mrs. Dickson has secured the services of George W. Reed to represent her and as the rest of us will now have a gentleman with whom to deal I am satisfied that the terms of the compromise will be agreed upon without further delay."

HANNA TALKS TO VOTERS.

extreme pleasure and gratification to meet so many persons.

He said he was not connected with the speakers' bureau when he came out to meet the people face to face, that he belonged to the executive department of the Republican National Committee and that he wished to tell Republicans and Democrats alike that everything is coming out all right and that there would be four more years, ten years more, of prosperity and up to all to enter the band wagon. He wanted to show the people on this trip, he said, that he was not as the papers caricatured him—with horns. The train left for Waukegan and Madison.

YOUNG WAITE IN DEMAND.

May Spend a Long Time
in the State
Prison.

Bert Waite, the young Easterner who defrauded the Berkeley bank by means of bogus express orders in a pack of trouble and will have to answer many charges before he gets out of the law's clutches.

He was originally charged with obtaining money by false pretenses. The law has requested the District Attorney to have the further charge of forgery and Judge Allen is preparing a complaint to that effect.

On top of this the American Express Company for which Waite worked in the East has sent word that it wants the young man on a charge of embezzlement just as soon as the California authorities get through with him.

STATE BOARD OF CHARITIES.

Tomorrow evening there will be a meeting of the Men's League of the First Congregational Church for the purpose of discussing the advisability of establishing a State Board of Charities. The principal speaker will be Professor Bacon of the University of California. Informal addresses will be made by G. R. Lukens, A. A. Denton, Oscar Cushing and others.

HOLLISTER JAIL BREAK.

Associated Press Dispatches by The Tribune's Special Leased Wire. HOLLISTER, Cal., Oct. 15.—Thomas Jones, charged with burglary, escaped from the County Jail last evening. He placed a bedstead on top of the iron cells and climbed through the skylight. Jones is an ex-convict.

BELONGS TO THE HIRUNDO RUFA.

First White Swallow
Goes to the U. C.
Scientists.

There may be such anomalies as "white blackbirds," but they exist mainly in the imagination. A white swallow would seem to be equally anomalous, but such is not the case, a fact to which M. C. Rigney, the owner of 217 Seventh street, can testify.

Mr. Rigney is a miner by occupation and taste. He has the appreciation of a scientist for various kinds of rock in which nature has stored her richest metals, and he has, at the same time, an appreciation of nature in other of her moods and features. He is the proprietor of the Ritter Mine in Calaveras county. The place is frequently visited by swallows, which sometimes hover over and flit around the place by hundreds.

Some time ago it was noticed that among the fleet-winged gray birds was a white one equally swift in its movements and apparently a member of the swallow family.

It was, like the gray mine in a herd of mules, generally in the lead. Mr. Rigney was fired with the idea of securing the bird for the purpose of adding it to his ornithological collection. The white curiosity was shy and coy, however. It came and went at will and generally made its appearance only when a weapon was out of the reach of those about the place. A few days ago, however, the white bird made its appearance when one of the mine men, "Doc" Kusler, had a shotgun in his hands. It was a bad day for that white swallow because "Doc" Kusler, unerring aim, had the bird low. Mr. Rigney has shown the bird to the ornithologists of the University, who pronounce it a rare and interesting specimen of the hirundo rufa family. The texture of the wings has not the coarseness of the blue swallow and the outer edge of the pinions is tipped with a silvery substance suggestive of eiderdown. The specimen in question is the only one ever brought to the attention of the professors at Berkeley.

WHILE INSANE LOST MONEY.

Pathetic Story Told in
Case of Alameda
Domestic.

The examination of Anna Bergstrom, the Alameda domestic charged with insanity, took place today before Judge Ogden.

The judge decided that if the woman could get some of her friends to care for her he would not send her to an asylum. During the progress of the hearing it developed that when she was sent to Ukiah about two years ago a man named Carl Jacobson was appointed her guardian.

She had \$200 in bank at the time of her commitment but when she was released from the asylum the bulk of the money disappeared.

Jacobson was haled into court and a move was made to prosecute him, but the matter was finally dropped.

GUESSING ON THE ELECTION.

Chairman Jones Com-
ments on Payne's
Figures.

CHICAGO, Oct. 15.—Senator James K. Jones, chairman of the Democratic National Committee, commented today on Vice-Chairman of the National Republican Committee Henry C. Payne's election forecast, as follows:

"His claim that California, Connecticut, Illinois, Kansas, Minnesota, New York, New Jersey, North Dakota, Ohio, South Dakota, West Virginia, Wisconsin, Wyoming and several other States would go for McKinley in the coming election is absurd, and any intelligent man who knows anything about the situation is bound to know that."

"He claims even chances for Delaware, Kentucky, Maryland, Nebraska, Nevada and Utah."

"I only wonder he did not include Texas, Arkansas, Georgia and Mississippi also in his list."

"Montana is as certainly a Republican State as some of the others on his list, and Montana will go for Bryan by from 20,000 to 30,000 majority."

"I cannot believe that Mr. Payne is sincere."

AGAINST REAL ESTATE AGENTS.

Judge Greene Will No.
Allow them Any
Fees.

Judge Greene had occasion today to reinforce his decision not to allow commissions to real estate agents who negotiate sales of property belonging to estates.

His views on the subject have already appeared at length in THE TRIBUNE.

The affair today came up when attorneys for the estate of the late Lorenzo Dresso wanted the sale of some real property confirmed and asked that Mr. Shannwald of Shannwald, Buckbee & Company be allowed a commission.

The judge repeated his former decision rendered in the Alexander Campbell estate and declined to allow the real estate agent any compensation whatever. He said that a certain law firm and real estate company of San Francisco had made a great deal of fuss about his stand.

"But," he said, "no person having a spoonful of brains would contend for a moment that a commission could be paid under the provisions of the statutes."

RHEUMATISM

PLAN TO BULLY JUDGE HART.

Attempt to Drive the Court Into Adopting Hayne's Broncho Law.

The water suit has reached a critical stage for the city's side of the case. A great deal hinges on the ruling of Judge Hart as to whether the members of the City Council can be interrogated as to what they knew and ascertained regarding the Contra Costa plant at the time they filed the water rates. How serious such interrogation is regarded is shown by the desperate efforts Attorney Hayne put forth to prevent it. His endeavors in the court proceedings have been supplemented by "inspired" articles in some of the local papers purporting to state the law of the case.

These articles are in the nature of legal belts, and argue from the premises that the motives of the members of a legislative body in passing a legislative act cannot be brought into question. That is exactly the point made by Hayne in his argument before Judge Hart, and the reasoning of the articles follows closely in his line that the source of their inspiration is a matter of little doubt. THE COUNCIL ACTED JUDICIALLY. Unfortunately for this contention, the courts have invariably held that the fixing of water rates, like the fixing of a tax levy, is a judicial and not a legislative function.

In matters of legislation the Mayor is vested with the veto power, but he cannot veto an order fixing water rates. The courts have uniformly held that in fixing water rates the Council sits as a judicial body, and the Mayor cannot, therefore, interpose a veto in case he is opposed to the schedule agreed upon. Upon this ground the veto by the Mayor of San Francisco of the orders fixing the tax levy and water rates was of no force and effect.

The Council, pursuant to a clause in the constitution, meets annually to pass an order fixing the rates that shall be charged for the ensuing year. That is not a law, but a judicial order made pursuant to certain directions and within certain limitations. The Council is simply exercising a judicial function for a special purpose, though the ordinance and decree are embodied in legislative form.

WHY IT CAN BE ATTACKED. An act of the Legislature cannot be attacked by interrogating the members as to the motives and reasons which guided them in enacting it, but the judgment of a court can always be annulled by proving that the judge had previously made biased statements concerning the issue. A subsequent confession on his part that he had acted without due information or without a law would void his decree. Otherwise litigants would be at the mercy of unjust and prejudiced judges.

For instance, a judge who expressed the opinion that a certain prisoner ought to be hanged is not fit to try the accused. He would be disqualified if the prisoner knew of it before trial, but if he only became acquainted with the fact after conviction he would be without redress according to Mr. Hayne. But the courts have invariably decided otherwise. The position of the Water Company under this theory is a great deal worse than that of a man tried for murder before a prejudiced judge, for he still has a jury and the right of appeal from the judgment. But the Water Company would have neither.

NO CLAIM TO JUSTICE. That no matter how absurd the valuation placed by the Council on the Water Company's plant the members could not be compelled to state under oath how they arrived at such a valuation or the basis on which it was fixed. They might say the plant was worth only a dollar and fixed a purely nominal rate of charge, but so long as they had gone through the formality of giving the company a hearing they could not be interrogated as to whether or not they had made any at all. In response to Moore Hayne said the Company could have no redress if it were wrongly treated, provided the Council gave it a formal hearing before fixing rates.

He even went so far as to say that if the members of the Council had openly stated their intention of "cheating" the corporation their action would still stand in law.

NO POWER OF CONSOLIDATION. No legal authority supports this view, which broadly and brutally lays down the doctrine that municipal bodies from any motive either secret or avowed, either merely biased or grossly corrupt, can continue with impunity the property of a corporation supplying a municipality with gas or water. If this contention was sustained by the courts no sane man would invest his money in gas and water plants.

humiliated and discredited if they are submitted to a court examination in regard to their expressions and these interviews.

TRYING TO BULLY THE COURT. Mr. Hayne has set up some astonishingly novel law propositions to support position he has taken, and has endeavored by every trick of calumny, insinuation and implied threat to induce the court to side with him. He has all along acted as though the Judge required a certificate of character from him and his sneering insinuations about his honor's political affiliations evince a desire to humiliate and discredit the court. To use John P. Irish's phrase, he "tried to stuff" Judge Hart off the bench before the trial began.

Ever since there has been a persistent attempt to bully and belittle the Judge. Whenever Hayne raises one of his distorted legal propositions the newspaper clique raises a howl that the time has arrived for him to show that he is not prejudiced. The only way pointed out for him to show his fairness is to decide that the law is not the law but something that Hayne sees fit to declare is the law for the time being for Hayne's purposes.

INSPIRED ABUSE OF THE JUDGE. Who inspires these attacks on Judge Hart? They bear the earmarks of emanating from the court room itself, and in many cases are but broader and coarser elaborations of insinuations uttered by Hayne. It looks as if a concerted effort was being directed from the court precincts itself to humiliate the judge and control the course of justice.

Tomorrow Judge Hart will decide whether the Councilmen shall be interrogated or not. In the meantime, the clique are making faces at him and telling him very plainly that if he decides affirmatively he is "no good." As this treatment has so far not affected him in the least, it is not likely that the Judge is now going to give his assent to distortions of the law. Thus far he has ruled with fairness and dignity, neither side getting an advantage.

Remarkable Story Told
By an Oakland
Man.

Czar's Men are Acting Like Fiends in China.

Joseph Rogers of Thirteenth and Washington streets, has just received an interesting letter from R. T. Moody, who is in the engineering department on the U. S. H. S. Relief. Mr. Moody is a resident of Oakland. Some of the statements he makes seem incredible. The letter is as follows:

"Taku, China.
"Friend Joe—How are all my friends in Oakland. Well, I am in a fix now. I've put my foot in it. I don't know when I will ever get out of this place. There is no telling how long we will have to stay here."

"We remained three weeks in Nanchang, and I can tell you we had a good time. I did not attempt to do any work, but just went ashore and stayed there until I got ready to return to the ship. The visits, however, made a big hole in my purse and there was hardly a fangle in it when we left."

"I cannot give you much news, as there is little to say. I guess the folks in Oakland know more about the situation than we do. But say, there is a great fleet here—a fleet that a man can hardly realize without seeing it. There are about forty battleships and as many cruisers and about 100 torpedo boats lined up. The Americans have only two ships here at this writing, but there is quite a lot more at hand."

"The Russians are doing all kinds of things and the Japs are watching them very closely."

"THE RUSSIAN SOLDIERS GO INTO A TOWN AND INSULT THE WOMEN AND GIRLS. THEY TAKE THE BABIES, THROW THEM INTO THE AIR AND CATCH THEM ON THEIR BAYONETS."

"It looks as though there is going to be all kinds of trouble here. 'Remember me to all the boys and give my regards to Pop Brandish and tell him to keep a drink for me, for when I return I shall be very dry.'"

"If you desire you can tell some reporter the way the Russians are acting. I think the public ought to know the facts. You cannot make it too strong. Your friend,
R. E. MOODY."

AN OLD VETERAN SAYS STATE IS SAFE.

Major Kyle, an old Republican veteran, says California is safe for the Republican party. He has just returned from a campaigning tour in the northern part of the State. Major Kyle says: "You would be surprised at the large number of Democrats who express the intention to vote the Republican ticket this year. I do not refer entirely to men whose business interests lead them to change their views. I met men who were actuated simply by unwillingness to vote to place Bryan in the Presidential chair. Old men who have voted the Democratic ticket for years said they could not do so this year because they did not have confidence in the party's candidate. There is no doubt in my mind that the Republican ticket will win easily."

BERKELEY MEETING WAS WELL ATTENDED.

A well-attended Republican rally was held Saturday evening in Sateria Hall, Berkeley, under the auspices of the Alameda County Central Committee. Judge A. P. Vandewater of San Francisco was the principal speaker. Supervisor John Mitchell, David McWade, candidate for the Assembly, and Superior Judge Ogden and Elsworth also addressed the meeting. Thomas Dowd was chairman of the evening.

MAJOR PHELAN TALKS TO THE DEMOCRATS.

There was a fair attendance at the Democratic rally held in the Tabernacle Saturday night. John J. Valentine, acting as chairman of the meeting and introduced Major Phelan of San Francisco as the speaker of the evening.

Mr. Valentine, in introducing the speaker said:

"I haven't been asked to resign yet as president of the Wells, Fargo Company and I intend to vote for W. J. Bryan."

"We are told 'we must try to make the best of the situation,' but is the Government of the United States trying to make the best of it on the basis of Democracy or of imperialism. This question has never been squarely submitted to a vote of the people, and it is of the utmost importance to them. They had no voice in the direction of their own government in one of the two greatest crises that ever confronted the country, and no opportunity to say whether a political system should remain Democratic or become imperialistic through the device of an unscrupulous executive."

"To sum up my opinions from the beginning to the present stage of this whole miserable business, which I abhor, I think the Philippine islands belong to the Philippine people. I think that people have a right to such government as they think good for themselves, and that we have no right to give them such government as we think good for them."

Major Phelan made an interesting address on the issues in the campaign. He did not refer to the attacks made upon him by the Examiner.
